The politicians can't complain at their representation in the Legislature.

If Tillman's breath holds out he may be able to prevent Crum's confirmation.

Those who are making Taft's Cabinet have less than a month in which to work.

It seems that many persons are opposing the pending anti-trust bill without knowing its terms, many not having read it.

It is but right that sheriffs should be paid fees for destroying blockade stills so long as they have to depend on fees in place of salaries.

Congressmen may think they are getting even with the President by denouncing him, but they will find out their mistake in the end.

It looks like the Crum appointment will take up all the time the Senate will have to devote to executive sessions during the present Congress.

Governor Glenn should not have waited till his term expired and then gone before a Northern audience to proclaim the deplorable condition of the people of the western section of his State.

If it costs from eight thousand to ten thousand dollars over and above allowance for servants' hire and other perquisites to hold the office of Governor for one term, why are so many men anxious for the office?

As the groundhog saw its shadow on Tuesday and, consequently, went back into winter quarters it won't be possible for any persons to offer Taft a groundhog banquet for the next forty days.

If Tillman succeeds in forcing on Taft the appointment of a collector of customs for Charleston his popularity at the White House will not be much greater with the next administration than it is with the present.

COMMERCE CHAMBER

Important Special Meeting Yesterday Not for Consideration of Matters Legislation.

THE TARIFF ON LUMBER

No Reduction is Wanted—Present System of Pilotage on Cape Fear Regarded Satisfactory—For Stronger Assignment Law.

Important matters of legislation engaged a special meeting of the Chamber of Commerce for more than an hour yesterday at noon. The threatened reduction of the tariff on lumber, which would be most disastrous to the South, was opposed in a splendid argument and resolution prepared by President J. A. Taylor and unanimously adopted; the Chamber registered an emphatic protest against any change whatever in the present very satisfactory system of pilotage on the Cape Fear river and bar; it was resolved to employ a competent attorney to draft a suitable bill covering features of a more satisfactory assignment law in view of the contemplated abrogation of the National bankruptcy law, and a number of other matters were considered.

The very able argument of Mr. Taylor as to the lumber situation was upon motion of Mr. Sam Bear, seconded by Mr. Wm. H. Sprunt, unanimously adopted. Mr. Taylor discusses the entire theory of the tariff, a settled policy of this country, by whatever political party administered, to raise a large part of the revenue through tax on imports. The present exigencies of the revenue, he thought, did not permit of a reduction of income from customs source, unless some other form of taxation, direct or excise, is laid, and for this he considered the public mind was not prepared. Under this situation it was obvious that the proposed revision of the tariff will be more nominal than real, but notwithstanding this, there is a strong intimation that the duty on lumber will be entirely removed. Inasmuch as the South produces one-half of the lumber supply of the country and as the duty is now only \$2 per thousand or 12 per cent, advantage, and is in fact as well as in theory a revenue tariff, it would be essentially inequitable to remove the tariff on lumber, leaving undisturbed practically all other schedules. While the duty on lumber is only 12 per cent, Mr. Taylor set out, the duty on articles that enter largely into the construction of saw mill plants are from 35 to 75 per cent, so that to cut these schedules half in two would still leave a rate on these articles 300 per cent, above the rate on lumber.

In consideration of the able argument of the president, the Chamber unanimously went on record as follows:

"1st. That in view of the preamble herein set out, there is no justification for removing or changing the present duty on lumber.

"2nd. That a copy of this resolution be forwarded to our Senators and Representatives in Congress with the request that they use their influence to defeat any change in the lumber rate.

"3rd. That we believe that in making this request of our Senators and Representatives we are asking nothing that they cannot conscientiously grant and in granting render a service alike to the public revenues and legitimate industry."

Mr. H. C. McQueen brought the attention of the Chamber to the amendment introduced in the Legislature by Representative Morton changing the present very satisfactory arrangement as to pilotage on the Cape Fear river and bar. He read the following which Mr. L. B. Rogers made a motion to adopt, seconded by Mr. James H. Chadbourne, viz:

"Whereas, The present law regulating the matter of pilotage on the Cape Fear River and Bar was the outcome of a long agitation of the matter, and is in its terms a modification of previously existing conditions, and Whereas, a competent Board of Navigation, representing jointly interests of Wilmington and Southport, is in charge of the service, and has introduced machinery which has worked to the general satisfaction of all interests, and Whereas, a large majority of the shipping interests of Wilmington, three fourths of the pilots, and the Chamber of Commerce of Southport, have gone on record in support of the present system and management, and in opposition to any change of the law, be it Resolved by the Wilmington Chamber of Commerce—

1st. That we think it inexpedient to make any change whatever in the present pilotage laws for the Cape Fear River and Bar.

2nd. That Representative Morton be requested to show deference to the opinion herein expressed, and to withdraw his pending bill amending the present law.

Mr. R. A. Parsley opposed the resolution as presented by Mr. McQueen and thought that the amendment by Mr. Morton was a good thing as it gave to the pilot who braved the danger of piloting a vessel from the out-

COMMISSIONERS AS AUDITING COMMITTEE

In Regular Session—Annual Report of Hospital—Treasurer's Monthly Statement.

The Board of County Commissioners, sitting as an auditing committee, all members being present, was in regular monthly session yesterday afternoon at the Court House, passing up on bills for current expenses and other matters referred from the regular meeting of the Board on Monday.

The annual report of the James Walker Memorial Hospital, which was one of the matters deferred from Monday, was taken up and referred to committee for examination and approval. The report shows that the average number of patients in the hospital each day during the year was 45, of which 19 were paid and 26 charity. The ambulance responded to 631 calls, the largest number any month having been 65 in January and second largest number, 61 in July. Pay patients were treated a total of 6,700 days and charity patients 9,591 days. Patients treated from the dispensary were 2,392. The total number of patients admitted during the year was 1,036, of which 592 were whites and 444 colored. Total number of cases admitted 418 pay and 618 charity. The white patients were 380 pay and 212 charity; colored 38 pay and 406 charity. As to sex of all patients 631 were male and 405 female. Of the total number 197 were from out of the county.

A comparative statement of the receipts and disbursements of the hospital shows that whereas at the city of 1907 there was a deficit of \$553.18, there is a balance of \$692, a difference in favor of this year of \$1,245.18. The receipts from pay patients were \$12,813.90 against \$15,599.18 in 1907. The appropriation from city and county amounted to \$12,000 each year. Last year \$276.20 was received from miscellaneous sources while this year \$485.30 was received. The disbursements this year amounted to \$25,660.19 against \$28,303.76, economies having been made in several of the items of expenditure.

The Board yesterday afternoon passed upon the monthly report of Treasurer H. McL. Green, showing receipts and disbursements of the public fund during January as follows:

Receipts—General County Fund, \$19,308.49; Special County Fund, \$229.63; Road Sinking Fund \$10,413.20; cash for bonds, \$50,000; accrued interest, \$1,156.25; premium on bonds \$1,083.50; road fund transfer to General Fund in payment of loan, \$5,000; jail fees, \$5; property tax, \$2,094.63; special tax for road sinking fund, \$4,000; cash on account of general fund, \$4; sale of rock on account of road fund, \$480; marriage license, \$21.85. Total, \$32,801.45.

Disbursements—Amount overdrawn December account, \$198.20; transfer to General Fund, \$5,000; warrants paid \$3,210.64; coupons paid, \$2,237 to road sinking fund; coupons paid, \$184.78 to special county fund; roads and bridges \$353.25; County Home, \$340.76; Public Buildings, \$327.89; repairs, etc.; out door poor \$263.86; military, \$300; hospital, \$600; Superior Court, \$34.20; jail \$261.30; United Charities, \$118.75; stationery and advertising, \$58; magistrates, \$44.75; commissioners, \$118; miscellaneous account, \$1,214.78; Register of Deeds, \$21.75; Supt. of Health, \$100; Coroner, \$5; Constable, \$8.60; Clerk, \$60; Janitor, \$50; Treasurer's Commissions, \$80.13. Total \$15,196.64.

The balance to February account is \$78,604.81, which is credited to the several funds as follows: General County Fund, \$22,067.56; Special Fund, \$44.85; Road Fund, \$44,315.91; Road Sinking Fund, \$12,176.20. Total, \$78,604.81.

Expert Cutter at Solky's.

An expert cutter, representing Strouse & Bros., the well known tailors, is at the store of Messrs. J. M. Solky & Company, with an excellent line of Spring samples and will take orders for high grade custom tailoring for the next few days. Mr. Solky invites the Wilmington people to inspect the splendid line of samples on exhibit during the expert's stay here.

side the exclusive right to pilot her on the river and back out. He was unalterably opposed anyway to a system of compulsory pilotage.

President Taylor and Messrs. Wm. H. Sprunt, Jas. H. Chadbourne, H. G. Smallbones and others spoke in favor of the resolution, explaining why it was desirable that there be no opening of this question, which is now being carried on most satisfactorily and efficiently. Finally upon vote the resolutions were unanimously carried with the exception of Mr. Parsley, who voted in the negative.

This matter having been disposed of, the executive committee of the Chamber was empowered to employ an attorney to draft a suitable bill representing the views of members as to the strengthening of the State assignment law, embracing the salient features of the National bankruptcy law, in the event the latter should be repealed by Congress. The executive committee will report back to the Chamber.

Relative to an amendment of the corporation law, it was decided to ask for such amendment as will permit the money derived from a suit of tort to go to the estate instead of the heirs, which would have the money to apply to just debts.

WALKER OVERTAKEN

Brunswick Fugitive and His Accomplice Routed by Sheriff's Posse; Latter Taken.

NEAR BOLTON LAST NIGHT

Dudley Arrested But Murderer Fled Into Swamp Before Fusillade of Shots—Prisoner Brought Here on Way to Southport.

After an unremitting chase since last Sunday morning, most of the time with the bloodhound from Chadbourne, through the fastness of swamps of miles of area, Sheriff J. J. Knox and posse, of Brunswick county, last night a few minutes after 7 o'clock, overtook J. C. Walker, slayer of Sheriff Stanland, and his accomplice in storebreaking, Will Dudley, both of whom broke jail at Southport last Friday night, the latter having dropped on his knees and surrendered while Walker disappeared into a swamp before a fusillade of shots.

The scene of the capture of Dudley and the encounter with Walker was about two and a half miles from Bolton, on the W. C. & A. railroad, from which point Dudley was brought to Wilmington on the early morning train today and placed in the New Hanover jail by Messrs. J. H. Thompson and R. S. Pinner, of Southport, members of the sheriff's posse, who will take the prisoner to the Brunswick jail this morning. Walker is closely guarded in a swamp by Sheriff Knox, members of his posse and a large number of volunteers from among the employees of the Waccamaw Lumber Co., at Bolton, and it is believed that he will be taken this morning. There are said to be about 75 in the party surrounding the swamp, which while large, is pretty well situated to prevent the fugitive's escape.

All day yesterday the sheriff's posse was within 5 or 6 hours of the two fugitives who were first heard from at a logging camp of Italians, about seven miles from Bolton. One of the number asked for food there and upon being refused, went off into the swamp. Sheriff Knox and his men arrived shortly afterwards and the chase became lively, the members of the posse spreading out in all directions and endeavoring to cut off every avenue of escape towards the railroad. A little after 7 o'clock last night in the road near a branch Mr. William E. Maulsby and Mr. Applewhite, both of Town Creek, and members of the posse, saw two men and advanced upon them. Mr. Maulsby called out to them to halt and Dudley immediately dropped on his knees and surrendered. Walker, without showing fight, ran into the swamp as Mr. Maulsby opened up on him with a Winchester and Mr. Applewhite with a shot gun. One of the number stated that Walker evidently dropped but recovered himself as if wounded, and it is said to be strongly probable that he may be found wounded in the swamp today. The firing attracted other members of the posse very soon and men were thrown out in all directions to surround the swamp, which is known as "Jesse Island," a part of the Green Swamp territory.

Yesterday morning word came from Sheriff Knox that the Chadbourne bloodhound, which had proved of invaluable service in tracking the fugitives, had given out and Mr. John W. Brooks, of this city, telegraphed to Burroughs the famous bloodhound, a pair of splendid animals, which arrived on the evening train last night in charge of Jailer Rivenbark and will be taken on the 5 o'clock train this morning to Bolton to join in the search for the desperado.

Dudley was brought in securely tied last night by Messrs. Thompson and Pinner, his clothing tattered and torn from the flight through the thick swamps he has been compelled to traverse ahead of the officers for five long days and nights. He talked freely when seen at the jail. He said he was glad that he had been captured and would have surrendered from the first if Walker would have allowed him to do so. He is a mere strip of a boy, florid of complexion and with long, bushy hair. He says that he is only 15 years of age, and he seems not much more than that; that his home is at Athens, Ga., and that his father Cebron Dudley lives there and is employed in a cotton mill. He says that he joined Walker in Brunswick about two weeks before he was arrested and was on his way out West. He said that Walker filed his shackles in the Southport jail with a piece of hoop iron but that he affected his escape from the cell by a false key which he had made and which he says he will show to the officers secreted in the jail when he gets there. He said that Walker forced him to come out of the jail with him and that the officers have been close behind them from the day the chase started. They could hear the bloodhound yelping on their trail part of the time and had resorted to the expedient of pouring kerosene into their shoes and rubbing them with sassafras roots to throw the hound off the track. Yesterday, he said, when they were more closely pursued, he said

A SOLUTION IS REACHED

Protection of Trucking Industry Now Seems Assured in New Measure Agreed Upon in Conference. Delegation Returns.

President Wm. E. Springer, Secretary H. T. Bauman and others of the members of the Executive Committee of the East Carolina Truck and Fruit Growers' Association, who went to Raleigh in the interest of the bill for the protection of the trucking industry, returned to their homes last night, evidently well pleased with the turn of affairs, before the Legislature with respect to the relief sought.

As stated yesterday morning, attorneys differed as to the original bill presented and yesterday came the news that this has been discarded in favor of a new measure which provides a tax of \$10 per year on buyers and solicitors of fruit and produce, the same to be paid into the State Board of Agriculture and kept as a separate account for the maintenance of the Association. President Springer stated that as he was leaving the joint committee had agreed upon this compromise measure and that Robert Ruark, Esq., attorney for the Association, and Mr. J. A. Westbrook, of Mount Olive, were left in charge of the bill. The following special was received last night from Raleigh:

Raleigh, N. C., Feb. 4.—The Joint Committee on Agriculture and Representatives of the Eastern Carolina Truckers' Association and Attorney General Bickett have, they believe, solved the difficulty in providing revenue for the expense of the inspection of shipments and marketing berries and truck that seemed so effectually blocked yesterday by the Hepburn act, preventing railroad companies from collecting the one cent and half cent per crate extra with freight to be paid over to the Truckers' Association. They have agreed on a substitute bill that provides an appropriation of not over \$5,000 from the State Department of Agriculture for the purposes of the Association and imposes a license tax of \$10 on all buyers and solicitors of truck, this to be paid into the Department of Agriculture and accounted separately to cover the appropriation in paying the agents of the Truckers' Association. The president of the Association certifies the accounts to the Commissioner of Agriculture and he to the State treasurer for payment. This substitute will be reported to the House tomorrow and is certain to pass. The counties involved are Wayne, Duplin, Sampson, Pender, New Hanover, Brunswick, Columbus, Bladen, Robeson and Cumberland.

THE SCHOOL CONFERENCE

Representative Morton Cannot Come Before Tuesday, If Then. (Special Star Telegram.)

Raleigh, N. C., Feb. 4.—Representative Morton says it will not be possible for him to go to Wilmington for the school conference before Tuesday, if then. Matters of vital importance, including the report of the select committee involving the integrity of State officials, are engaging his attention and every member of the committee is required to give preparation of the report his constant attention. At the same time he says this may be a short session and the school bill will have to be rolled call so it should be on its passage as early as possible. He wishes it were possible for the school representatives to come here in the interim as he may be unable to be in Wilmington Tuesday.

FOR THE FREE SHELTER.

Bank Cashier Cooper Authorized to Receive Pledges of Support.

With a desire of placing upon a permanent basis the "Free Shelter Mission," recently established here by Rev. A. J. Willis, of Charleston, S. C., previous mention of which has been made in these columns, postal cards have been mailed to quite a number of influential and philanthropic Wilmington citizens asking for pledges of \$2 annually to the support of this work, which is purely in the interest, as Mr. Willis expresses it, of the "down and out." These postal card pledges are returnable to Mr. Thos. E. Cooper, cashier of the American National Bank, who has kindly consented to act for the committee, which is composed of Rev. A. D. McClure, D. D., Rev. T. A. Smoot and Mr. Cooper.

Murphy is Allowed to Go.

John Murphy, the white man arrested for abandonment and non-support on complaint of his wife, was yesterday released from custody, when Mrs. Murphy appeared in Justice Furlong's court at the time set for the trial and stated that she was unable to make a case against him and paid the costs of the action. Murphy was first arrested by the police on the charge of vagrancy and the case was transferred after his wife made complaint that he had threatened her and she wanted a more serious charge preferred against him.

CAPE FEAR PILOTAGE BILL

Amendment Reported Unfavorably by Unanimous Vote—Good Government League Plan Killed—Protection of Forestry in State.

(Special Star Telegram.)

Raleigh, N. C., Feb. 4.—In neither branch of the General Assembly today were there any bills of more than passing interest. The committees of both houses were, however, busy in the afternoon and a number of important bills will be reported when the respective bodies meet tomorrow morning. Speaker Graham has returned from court in Granville and resumed the reins of the Speakership in the lower House.

The present pilotage law for Wilmington harbor and the Cape Fear bar will not be disturbed. The House Judiciary Committee No. 2 voted unanimously today to report Morton's bill unfavorably. Mr. Taylor, of Brunswick, made a vigorous fight against the bill before the committee and he had to back him up, a petition signed by every man he said, who had a dollar invested in a pilot boat. The very men, who are supposed to be benefited by the Morton bill, had signed it and the same men who had opposed the present law two years ago. Some of the pilots, it was pointed out, confined their work entirely to the river, Capt. Craig for instance, the veteran of them all, who was present, and consequently captains of vessels wanting to be piloted on the river preferred to use their services.

Mayor M. C. Guthrie, of Southport, a member of the Board of Commissioners of Navigation and Pilotage, addressed the committee against the bill. Before he had concluded his remarks, Chairman Stubbs said as the evidence was so overwhelming it was useless to hear more, and the bill was promptly given an unfavorable report. Capt. Craig thanked the committee and added: "I hope you gentlemen will pass a law so that if any one brings in another pilotage bill you can put him in the penitentiary."

The Senate Routine.

Lieut. Governor Newland convened the Senate at 11 o'clock with invocation by Senator Turner, of Harnett. Introduction of bills included:

Hassett, petition from citizens of Rocky Mount asking that the bill to prevent garnishing of wages of railroad employees be passed.

Pharr, petition from Mecklenburg Camp of Confederate Veterans for more pensions.

Manning, to amend law relative to settlement of certain Western North Carolina construction bonds.

Manning, to amend law relating to time for computing, compromising and settling public debt.

Hawes, to incorporate town of Watha, Pender county.

Nimocks, relative to public roads in Cumberland county.

Bills passed final reading: Amend charter of town of Lowell; enable Hillsboro to issue bonds; House Bill to amend law as to bond issue of the town of Lenoir; House Bill to authorize bonds for Chatham county; render secure from damage by fires such woods lands as are above 2,000 feet contour line of North Carolina by authorizing the Governor to appoint fire wardens to be paid by land owners.

A message was received from Governor Kitchen, transmitting a letter from Superintendent J. S. Mann, of the penitentiary, asking that certain money from the penitentiary funds in the hands of the State Treasurer be returned to the prison authorities. This is money for paying off the State's prison bonds. The purpose is to have the State make other provision for the payment or refunding of bonds.

Bills passed final reading: Reletting to fees of officers in certain cases in Bladen county. House Bill to amend 3773 Revisal, relating to bridges in Wayne county. House Bill, to regulate the pay of jurors Duplin county. To permit commissioners of Richmond county to donate land on which to erect Confederate monument; create new township of Robeson county from parts of Britt and Sterling townships, new township to be known as Orrum; House Bill, to repeal Chapter 513 Laws of 1907, relating to increasing the number of commissioners of Sampson county; House Bill, to amend Revisal as to time for publishing notices in caveat, making four instead of six weeks; House Bill, to increase pay of jurors in Columbus county; amend charter Elon College; amend law as to standard keepers, inserting a new section in Revisal; amend Revisal by allowing Sheriffs fees of \$25 for illicit distilleries seized, this fee to be payable to other police officers seizing distilleries; incorporate the John Charles McNeill Memorial Society; House Bill, to fix liability of banks to depositors for paying raised or forged checks of six months limitation; amend the Revisal relating to docketing judgments.

WILMINGTON, N. C.

Entered as second-class matter at
the postoffice at Wilmington, N. C.
under the Act of Congress of March
3, 1879.

Friday, February 5, 1909.

WILMINGTON'S RECORD.

"Now, if New Hanover has established a record for anything it is that she does not want 'local self-government' carried to its logical conclusion. She had more 'local self-government' than she wanted in 1898 and the State was thrown into a ferment to help her out of it."—Greenville Reflector.

These frequent allusions in some of the papers of the State to the stirring events in Wilmington in 1898 in which it is made to appear that our people were in such dire distress and so absolutely unable to protect themselves that they sent up a wall for assistance whereupon the balance of the State rushed to the succor and for their sake alone put the State Government back into the hands of the Democrats, would be annoying if they were not so utterly absurd and so absolutely at variance with the truth.

All who know the facts—and are willing to admit them—know that the men of Wilmington took the lead in 1898 in the desperate fight waged in that campaign to throw off the rule of the Fusionists and negroes. They openly announced their determination to rid themselves of negro domination, let it cost what it might, took the lead and called on the party in the State to follow them.

It was the bold stand the Wilmington men took that, more than anything else, redeemed the State. They asked for no help to re-establish self-government, but took the initiative and aroused the whole State to such a pitch of indignation at the conduct of the party in power that herculean efforts were made, and successfully made, to cast off the yoke of misrule and corruption which had been placed—not upon Wilmington alone, but upon the whole State.

The Wilmington people began the fight against desperate odds, knowing that defeat meant their utter ruin—death perhaps to some of them. And if they had not acted the heroic part they did North Carolina would have remained under Republican-negro rule.

The record that Wilmington has established for maintaining self-government and for her people's courage to assert their rights and to maintain them has been an unbroken one from the time of their open resistance to enforcement of the stamp act in Colonial days down to and through this trying time of the campaign of 1898, and her escutcheon which she has kept bright through all these years cannot be tarnished by the mud some persons seem to think it smart to throw at it.

STATUS OF SEAWELL'S CASE.

Of the status of Seawell's appointment to the Judgeship, now in the hands of the Judiciary Committee of the Senate, the Washington correspondent of the Charlotte Observer said in yesterday's issue of that paper:

"Senators Overman, Dillingham and Nelson were appointed a sub-committee to look after the judicial appointments today. The Seawell matter comes before these gentlemen. Senator Overman can confirm the Tar Heel if he will. Senator Overman occupies an interesting position in regard to the Seawell confirmation. By a simple twist of the wrist, as they say in North Carolina, he could have the appointment confirmed, but being just a little timid he is doubtful about the advisability of such a step. Some persons are inclined to criticize him for not taking the bull by the horns and forcing Foraker, Aldrich and others to retreat, but others believe that he is doing the right thing, as they hope that the matter will go over until Mr. Taft gets in the White House. But the friends of Seawell, and, judging from the letters that have come here, their number is great, do not think he is getting a square deal."

Now that such strong opposition to confirmation has been shown by several of the leading Republican Senators it may be that Senator Overman would not have everything his own way were he to attempt to have the nomination confirmed at this session. It looks like it is to be a fight between the Rooseveltites and the anti-Rooseveltites. What course Senator Overman as a member of the sub-committee will pursue has not yet been announced.

As long as those persons in Cuba who desire American rule in the island know that political disturbances will be followed by intervention by our Government such disturbances may be looked for at frequent intervals.

LOOSENING THE MARRIAGE TIE.

The records of the State show that for the twenty years—1887-1906—7,047 divorces were granted, 4,103 to husbands and 2,944 to wives, and still there are some members of the present Legislature who think that there are not enough causes for divorce on the statute books, are trying to add others. With the above figures before them they should rather be seeking to have the causes for divorce decreased in number in the effort to put a stop to this eternal grinding of the divorce mills. If many more of the bars are let down our State will soon rival South Dakota in her unenviable reputation on the divorce subject. She must be a close second to that State now. Instead of aiding in loosening the marriage tie, as does the establishment of every new cause for divorce, our Legislators should turn their attention to efforts to increase its sanctity by making divorce more difficult.

The World's Work for February contains a large amount of highly interesting matter. Those who are interested in Roosevelt's coming hunt in Africa will read with interest the article on "Hunting the Rhinoceros and the Hippopotamus in Africa." Other leading articles are "The March of Events—An Editorial Interpretation," "The Results of the Work of the National Conservation Commission," Rockefeller's article on "The Difficult Art of Getting," "The American Invasion of Mexico." These are by no means all the matter in this issue likely to please its readers. The address of the publishers is Doubleday, Page & Co., 133 East Sixteenth street, New York.

The Commoner says that once upon a time Theodore Roosevelt wrote the "Life of Oliver Cromwell" and now some of Roosevelt's Republican friends are quoting these significant words from that publication:

"Had Cromwell not become cursed with the love of power, had he not acquired a dictatorial habit of mind and the fatal incapacity to acknowledge that there might be righteousness in other methods than his own, he would certainly have avoided a break with this parliament."

From the manner in which this reference is made we judge the Commoner thinks the words are applicable to President Roosevelt.

Few people in this State were aware of the low condition, morally and intellectually, of the people in our mountain counties until ex-Governor Glenn so pathetically described it to his audience in Baltimore a few nights ago. Of course he did not exaggerate. That no one else ever heard of such conditions does not prevent his statements being true.

In the American Review of Reviews for February the many readable articles under the department of the "Progress of the World" are worth the price of the number. In addition to these the leading events and topics of the day are interestingly written up. The publishers' address is the Review of Reviews Company, 13 Astor Place, New York City.

Isn't the Legislature going to do something to put the Fifth district back into the Democratic ranks? If Surry was put back into the Eighth, from which it was taken several years ago to make that district more surely Democratic our party would be sure of one more Congressman.

When the Panama canal is finished who is going to use it? Unless our Government gives greater encouragement to the building of ships by Americans we will have dug the canal for the benefit of our competitors in foreign commerce.

Even such big men as Senator Aldrich can make asses of themselves at times.

CURRENT COMMENT.

—That circus man of Bridgeport, Conn., who offered Mr. Roosevelt \$300,000 to do a Rough Rider stunt in connection with the circus has a splendid idea of that gentleman's capabilities if not a very high one as to his dignity.—Raleigh Times.

—A few days ago our Governor, in conference with the heads of the three great Southern railway systems, tried to impress upon them the fact that now is not the time to risk further financial troubles by tampering with the rate case. The railway magnates were only asking that a tribunal be formed by legislative act before which they could come and air their grievances—truly, a reasonable request! Governor Kitchin could not fail to see the justice of their demand, but with the State's best interests at heart, he asked them to wait for better times. He recognized the fact that the State has passed through a year of storm and stress and that conditions are not yet settled. Even a semblance of the reopening of the rate case he feared would result in financial disaster.—Raleigh Times.

—A correspondent of the News and Observer favors the State issuing \$10,000,000 in bonds in order to retire the outstanding bonds and have plenty of money on which to operate. He says we will not regret it in forty years. The idea seems to be growing among some people that it is the proper thing for the States and municipalities to borrow all the money they possibly can, putting off the evil day of pay-

ment as long as possible. As much consideration should be given to public borrowing as to private borrowing, for one is a lien on the resources of the individual and the other a lien on the property of the community as a whole. It's all right to borrow a reasonable amount for necessary public improvements, but to borrow money for luxuries in advance of the growth of the community to take care of them, making taxes odious and burdensome, is neither wise nor safe.—Wilson Times.

—Representative Julian, writing to his paper, The Salisbury Post, anticipates a busy time in both the Senate and House this week. One of the chief things of interest in the House will be the killing of Representative Harshaw's bill providing for the election of county school boards by the respective counties, instead of by the Legislature. It is a good measure and a step in the right direction of local self-government, but we infer from what Mr. Julian says that it is regarded as a purely political move, and will be killed for that reason. Politics is responsible for much of the scotch of the wheels of progress. If we could once get a Legislature not controlled by politics, the people would have a law-making body not to be afraid of. The day may come when politics will not dominate legislation, but we fear it is rather distant. The people ought to be given local option and local self-government, but it would not be good politics to give it to them just now.—Charlotte Chronicle.

—The Senate of North Carolina adjourned in honor of the birthday of Samuel Gompers. No such honor has ever before been paid a living man. Yet there were brave men and good before Achilles. Just why Mr. Gompers should have been picked out for this unprecedented distinction is not easy to discern. He has respectable ability and enjoys a reputation for sincerity and unselfishness which does not attach to all professional agitators. He is more conservative than Debs and more radical than Mitchell in conduct of the Labor movement. Perhaps our friend of the Raleigh News-Observer will explain why the Carolina Solons felt called on to suspend their labors on the natal day of Mr. Gompers. Was it because he tried, though vainly, to concentrate the Labor vote on Mr. Bryan? Then logically the Senate should have acknowledged by a recess the birthday of Bryan. Josephus Daniels also did his level best to elect the peerless son of Nebraska. Yet we understand that the Senate sat stolidly at work on the date of his nativity. This is discriminating and partiality. Why was Samuel preferred above Josephus, Why?—Virginian-Pilot.

The Secret of Long Life.
A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c at R. R. Bellamy.

—Salisbury Post: The county commissioners at their meeting Monday ordered that the application of McDaniel-Klutz Co., of East Spencer, to sell liquor by a registered pharmacist be granted for six months, the privilege tax to be \$100 for the period named, provided the license shall be revoked upon any misconduct or violation of the law regulating the same.

THE SLEEPING SICKNESS WHICH MEANS DEATH

How many readers have heard of this terrible disease? It prevails in that far-away country—Africa—especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to lie awake at night, tossing about, nervous, with cold feet, hot head and mercy knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried everything without relief. Vinol was recommended, and to my surprise, it helped me at once; gave me a splendid appetite, and now I sleep soundly."

What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep. VINOL is sold in Wilmington by Robert R. Bellamy, Druggist.

His Own People.

The negro blood wherever it is, declares Ray Stannard Baker in American Magazine, supplies an element of light heartedness which will not be wholly crushed. In illustration he tells this story of a very light mulatto of Tennessee:

A number of years ago it came to him suddenly one day that he was white enough to pass anywhere for white, and he acted instantly on the inspiration. He went to Memphis and bought a first class ticket on a Mississippi river boat to Cincinnati. No one suspected that he was colored. He sat at the table with white people and even occupied a stateroom with a white man. At first, he said, he could hardly restrain his exultation, but after a time, although he associated with the white men, he began to be lonesome.

"It grew colder and colder," he said. In the evening he sat on the upper deck, and as he looked over the railing he could see down below the negro passengers and deck hands talking and laughing. After a time when it grew darker they began to sing the inimitable negro songs.

"That finished me," he said. "I got up and went downstairs and took my place among them. I've been a negro ever since."

The Elder Robert Fulton.

Robert Fulton was born at Little Britain, Lancaster county, Pa., Nov. 14, 1765. His biographers have called him "a self made man" and have made but brief reference to his parentage. It is noteworthy that his father, the senior Robert Fulton, in a failure to leave financial patrimony to his children has not been accorded the mention of other achievements, not slight in those primitive days. His ancestors crossed from Scotland to Ireland prior to the time of Cromwell. From Kilkenny, Ireland, the Fulton family came to America before the year 1735. The senior Robert Fulton was among the prominent men of Lancaster, his name having been on record upon all the town organizations which existed at that period. He was a founder of the Presbyterian church, the secretary of the Union Fire company and a charter member of the Juliana Library of Lancaster, the third library established in the American colonies.—Century.

The Fourmillion.

"In the Sahara," said an explorer, "there is a little insect that throws sand, and its volleys slay. They call it the fourmillion. The fourmillion digs itself a funnel shaped hole of the circumference of a silver dollar. It lies hidden and watchful in the bottom of this hole, and when a spider or ant or beetle comes cautiously prospecting down the steep and slippery sides the inhospitable fourmillion launches upon its guest volley after volley of sand—a hail of stinging sand so abundant, so suffocating, so blinding that the visitor loses his head. He rolls unconsciously for the nonce to the bottom of the hole, and the fourmillion calmly dismembers him before he has time to come to himself again and puts him in the larder for the next meal."

How He Managed It.

The bishop of Richmond told a good story about his father. "He was a farmer," said Dr. Puelleine, "and a nice old gentleman too. One year he took it into his head to grow flax, so he sowed the seed and, having a good crop, sent it away to be made into a tablecloth. Some time later when seated at dinner he remarked to a lady near him, 'Do you know, I grew this tablecloth myself.' 'Did you really?' she answered, with the greatest surprise. 'However did you manage it?' 'Well,' most mysteriously, 'if you'll promise not to tell any one I'll tell you. I—planted a napkin.'"—London Mail.

Her Assistant.

The authoress of whom Fliegende Blatter tells had said that she was very happy in her married life. "I find my husband such a help!" she added fervently.

"Indeed!" said her friend. "Does he cook or write?"

Thought of Him.

Papa—Are you sure that you and mamma thought of me while you were away? Grace—Yes; we heard a man kicking up a great row about his breakfast at the hotel, and mamma said, "That's just like papa."

Economy.

Howell—How many meals a day do you have? Powell—Two. We have breakfast, and then it takes my wife until dinner time to decide what to have for luncheon.—New York Press.

The only serious and formidable thing in nature is will.—Emerson.

Her Husband's Business.

"Now, madam," said the gas man with the gray curl in the middle of his forehead after he had asked her twenty questions more or less apropos of her application for the privilege of paying for gas, "what is your husband's business? What is he doing now?"

"I can't be sure, of course," the woman replied, "but I have my suspicions. I had to divorce him before he died."—New York Press.

Household Remedies which have stood the test of time deserve a place in the medicine chest of every family. Mothers are today administering to their children the remedies their grandfathers used.

For thirty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been curing the women of this country from the worst form of female ills, and merit alone could have stood such a test of time and won such an enviable record.

Johann Hanneke, Count Von Bern-
storff, the New German Ambassador
to the United States was given a re-
ception by the New York Chamber of
Commerce yesterday and at night a
dinner was tendered the ambassador
by the New York Staats Zeitung at
the Manhattan Club. Ambassador Von
Bernstorff expressed the hope that the
friendship of Germany and the United
States will continue and deepen.

The bill prohibiting the manufac-
ture of intoxicating liquors in Ten-
nessee was passed by the House yester-
day over the Governor's veto by a
vote of 59 to 37. The law goes into
effect January 1st, 1910.

WALKER OVERTAKEN

(Continued from first page.)

they put out fire in the woods to head
off those on their chase.

He says that Walker is armed only
with the Iver Johnson 38-calibre pis-
tol which he took from Jailer Foun-
tain when he escaped and that he has
only four cartridges; that Walker
told him he would hang anyway and
that he did not propose to be taken
"without carrying some one with
him." Dudley seems to be completely
under the influence of Walker and is
rather enthusiastic when he speaks
of his inventive genius in eluding the
officers and his threats to kill. He
is charged only with being an accom-
plice of Walker in the store breaking
around Shalotte for which Sheriff
Stanland had gone after him, when he
was killed. A belt of skeleton keys
was found on the boy when arrested
and Dudley said that Walker gave
them to him to keep for a friend of
his (Walker's). Dudley says that sev-
eral times the officers have been close
enough to them to shoot them, if they
had only known their place of hiding
in the undergrowth. He was glad to
get in jail last night and quickly
"turned in" when his cell was opened
by Jailer Branch.

Messrs. Thompson and Pinner, who
brought Dudley to the city, say they
are certain that Walker will be cap-
tured today. He was not pursued last
night by Messrs. Mautsby and others
on account of the fact that they de-
sired to hold on to Dudley and be-
cause the swamp into which he plung-
ed when they fired was well nigh im-
penetrable. It is believed that if the
officer had pursued and continued to
fire, Walker would most certainly have
returned the fire and he is known to
be an adept shot. His only other
weapon is a case knife which was
stolen from a fish camp on Captain
T. M. Thompson's place, near South-
port, soon after they broke jail.

Mr. Thompson says that members
of the posse have undergone all man-
ner of hardships since they left South-
port nearly a week ago. The intense-
ly cold weather caught them in the
fastness of Green Swamp and a part
of the time as they trailed after Wal-
ker and Dudley, they broke ice and
ploughed through water nearly a waist
deep. They kept on the trail both
night and day and both he and Mr.
Pinner showed signs of great fatigue
and loss of sleep when they reached
the city this morning with Dudley.

The Theatre

The change of programme which
went on at the Crystal Palace yester-
day was both bright and delightful.
Large audiences held up the financial
part of the day's proceedings and each
audience waltz hearty in appreciation
and lavish in praise of the perform-
ance. The stars of the change are
Miller Reed, the eccentric comedian
and unique fiddle player, and the Mar-
tine Sisters. Each of these acts re-
ceived an ovation from the audience
and the Martine Sisters never fail
now to be greeted by vigorous ap-
plause when they make their first ap-
pearance. Their new act is a most at-
tractive one and introduces a number
of changes of costume. It also in-
cludes clog and skirt dancing and a
novel Filipino dance. The Leighs were
much enjoyed in their pretty juggling
sketch and Ed Price added to the
pleasure with a new black face turn.
The new bill will hold forth for the
rest of the week.

At the Bijou.

The Bijou will have something at-
tractive for moving picture patrons
this afternoon and evening, the offer-
ings being "Juvenile Circus" and Ben-
venuto Cellini, the story of a renown-
ed French sculptor. Both are French
films and will prove most acceptable
to the patrons of the popular Bijou.

LeGrand.

tures daily. Stop in and see. Open

Revenge" and the "Rag Tag Ball."

FREE FERRY OPENED.

Steamer Lyon Chartered at Fayette-
ville—Clarendon Bridge Fire.
(Special Star Correspondence.)

Fayetteville, N. C., Feb. 4.—The
steamer Lyon, which was fortunately
at her wharf here when the emergen-
cy arose has been chartered for the
purpose of a free ferry over the Cape
Fear consequent upon the burning of
the Clarendon bridge here yesterday.
Carpenters are at work on a large
flat, 75 feet long, 16 feet wide and
capable of accommodating six double
teams, and this will be ready for ferry
purposes by Monday. A road leading
to the ferry is being constructed on
the east side today by Mr. Evander
Bullard's saw mill employees.

The Atlantic Coast Line has gener-
ously offered aid in the emergency, a
letter having been received by Maj.
E. J. Hale, president of the Chamber
of Commerce from General Manager
W. N. Royall, advising that he will ar-
range a track put in over on the
east side of the river for the purpose
of handling phosphate cars to the sid-
ing and asking what proposition he
has to make with reference to hand-
ling passengers over the railroad
bridge into Fayetteville.

Six men were killed and several in-
jured today when a construction train
on the New York Central railway ran
down a party of workers, near Uni-
versity Heights in Bonxborough. A
gang of laborers, all Italians, were
working near a curve when the train
swept around the bend, plunged into
the group and hurled the men in every
direction.

The third torpedo flotilla now at
Pensacola, Fla., has been ordered to
Mobile to participate in the Mardi-
Gras celebration there February 15th
to 23rd.

bond, so as to remove cloud upon the

on third reading. Several thought it
a dangerous bill.

Adjournment was to 10:30 Friday.

Work in Committee.

The bill by the Raleigh Good Gov-
ernment League designed to provide
government by commissions for towns
and cities in North Carolina having
5,000 and more inhabitants, met death

20 cents per hour for time actually en-
gaged in official duties.

rieved young parents and the grand-

SCHOONER A TOTAL LOSS.

Revenue Cutter and Tug Leave For
Cape Lookout to the Rescue.

In response to telegrams received
Wednesday night by the Wilmington,
Southport & Little River Co., and
Capt. H. M. Broadbent yesterday, the
tug Blanche and the United States
Revenue Cutter Seminole left hurried-
ly yesterday morning for Cape Look-
out to be of any assistance possible
to the schooner Belle O'Neill, 394
tons, Capt. Coffin, bound from Perth
Amboy, Jan. 25th, to Savannah, Ga.,
with cargo of cement, which was re-
ported stranded off Cape Lookout
two miles from shore. The Blanche
left Southport at 11:10 yesterday
morning and the cutter left Wilming-
ton at about the same hour, but soon
after their departure another mes-
sage came stating that the stranded
vessel had gone to pieces and was a
total loss with her cargo. The tug and
cutter expected to reach the scene
last midnight, but neither will arrive,
of course, in time to be of any assist-
ance. The captain and crew of the
ill-fated vessel were taken off by the
life saving crew at Cape Lookout.
Assistance from Capt. Edgar D. Wil-
liams, of the Sea King, was also asked
but he received a telegram informing
him of the total loss of the vessel be-
fore leaving.

Soldier Balks Death Plot.

It seemed to J. A. Stone, a civil war
veteran, of Kemp, Tex., that a plot ex-
isted between a desperate lung trouble
and the grave to cause his death. "I
contracted a stubborn cold," he writes,
"that developed a cough that stuck to
me, in spite of all remedies, for years.
My weight ran down to 130 pounds.
Then I began to use Dr. King's New

completely, I now weigh 178 pounds."

SLUMBERLAND

Big Musical Extravaganza to be Pre-
sented Soon at Academy.

With each day's rehearsal of "Slum-
berland," the big musical extravaganza
so much talked about, its size and
popularity continues to grow. This
play is a combination of comic opera,
drama and musical comedy. In size,
it will eclipse anything ever before at-
tempted on the local stage, and those
who have seen the play as presented
in other cities, claim the music and
dancing solos and ensembles are one
of the features of the production.
Every available inch of space on
the Academy stage will be utilized for
the immense cast and some of the
groups will be housed in nearby build-
ings until time to appear before the
footlights, or, to be seated in the bal-
cony until time for their entrances
upon the stage.
"Slumberland" has enveloped the
city already and the pretty girls seen
upon the streets in large numbers
nowadays are wont to make people
exclaim, "There goes a part of Slum-
berland." Some of the most promi-
nent society ladies and a number of
leading business men are taking part
in the play.

AGAINST THE JAPANESE

California House Passes Anti-Mixed School Bill—Bill Against Holding Lands Defeated — Roosevelt Worried Over School Bill.

(By Wire to the Morning Star.)
Sacramento, Cal., Feb. 4.—Grove L. Johnson's bill compelling Japanese to attend separate public schools passed the Assembly today by a vote of 48 to 26.

Mr. Johnson's other bills prohibiting aliens from being members of boards of directors and restricting them in residence district at the option of boards of supervisors, were defeated, the former vote of 54 to 15. The latter measure failed of passage because of a tie vote, the friends of the bill being unable to muster the required 41 votes. The roll call finally stood 37 to 37 after a call of the House and several changes from aye to no and vice versa. The principal debate was upon the residential segregation bill.

Many who voted against the land and corporation measures announced that they favored segregation of undesirable aliens because that was effective anti-Japanese legislation.

Shortly after the disposal of the Johnson bills Mr. Drew moved that the vote by which his land bill was defeated yesterday be reconsidered. He offered to amend the measure by striking out a section which "it had been declared, violated the treaty rights of several nations. He directed that as the school bill had just been passed and that was the one against which the President objected most strenuously two years ago, the Assembly should go a step further and pass the land bill also.

The motion was lost, the vote being 36 ayes and 38 noes. This showed a gain of ten votes for the proponents of the bill.

Sacramento, Cal., Feb. 4.—Gov. Gillett this afternoon received the following telegram from President Roosevelt:

"Washington, Feb. 4, 1909.
"G. N. Gillett, Governor of California:
"Your kind letter just received. What is the rumor that the California Legislature has passed a bill excluding the Japanese children from the public schools? This is the most offensive bill of all, and in my judgment is clearly unconstitutional and we should at once have to test it in the courts. Can it be stopped in the Legislature or by veto?"

"THEODORE ROOSEVELT."
Carson, Nev., Feb. 4.—The anti-Japanese resolution, shorn of its reference to President Roosevelt, came up in the Senate today and was referred to the Judiciary Committee. It is said this committee, of which Senator Boyd is chairman, will smother it, in accordance with the wishes of United States Senators Nixon and Newlands.

BAZAAR FINE SUCCESS

W. L. I. Fancy Drill Excellent Feature. Concluded Last Evening.

Last evening was the most interesting and successful period of the Boys' Brigade Bazaar, this being the concluding night. The many entertaining features which consisted of a fancy drill by a squad of the Wilmington Light Infantry, gymnastic exhibition, musical programme and other well arranged crowd during the mid-Winter largest crowd during the mid-Winter fete, in progress for the past three evenings.

The programme began with the fancy drill of a squad of the W. L. I. under command of Lieutenant Gause and was witnessed by an enthusiastic crowd who praised the soldiers most deservedly, followed by an equally interesting gymnastic exhibition by Captain W. R. Doshier's class of the Boys' Brigade.

The splendid musical programme included a trio composed of Mr. E. C. Craft, Miss Edna Craft and Mr. Leon Jewell, using the violin, clarinet and cornet, with piano accompaniment by Miss Gardner, following which a number of selections were rendered by the Boys' Brigade Band.

The Bazaar has been a splendid success and the booths, in charge of the lady friends of the organization, and the country store, were again well patronized last evening and the concluding hour of the fete was live and pleasing to the many visitors.

In the voting contest for the most popular young lady Miss Gracie O. Craig led with 903 votes and will receive the handsome brooch offered by Mrs. Honnett. Miss Jessie Holmes was a close second. Charles C. Davis was elected president of "The Ugly Club" by a majority of 198 over Fleet Williams, who becomes secretary of the Club by virtue of second highest vote.

THE REDS AND BLUES

Y. M. C. A. Organizations to Work for Members—Pleasant Evening.

Last evening at the Y. M. C. A. all members of the senior department, were served with supper, following which a number of short addresses were made, preparatory to perfecting plans for the Inter-State membership contest, which was organized with two teams known as the "Reds" and the "Blues."

Five other cities will contest and the race for members will be in progress from February 15th to 22nd, and a trophy will be awarded by the Charleston, S. C., Association. All members of the Y. M. C. A. are in either one or the other of the organization forms and the red and blue buttons will be in evidence on the streets of Wilmington beginning with today.

Those who spoke last evening at the launching of the movement were Messrs. H. W. Malloy, K. W. Price, H. G. Fennell, J. S. Funchess and W. W. Koch.

The Odd Fellows Temple at Chatham, Ont., was robbed of costly jewels and ornaments Wednesday night. What has caused the most consternation, however, was the discovery that copies of the secret work of the order were taken by the thieves.

WALTER WALLACE BOUND OVER

Negro Who Fired Into Colored School Yard—Afraid of "Santer."

Walter Wallace, the negro youth, 17 years old, charged with firing into a yard filled with children at the colored school on the Scott's Hill road, wounding five of the number, was given preliminary trial before Justice Gerrit Walker, of Harnett township, yesterday at noon and bound over to the higher court under bond of \$100 justified, which he gave with his father and mother as security.

The remarkable feature of the case was that Wallace, who had been camping in the woods ever since a warrant was issued for him ten days ago, told Justice Walker that he never would have been caught if he had not been afraid of the "santer," about which he heard so much talk and started home for protection from the variant when Constable Smith nabbed him. He avows that while walking on the Newbern railroad between the fifth and sixth mile posts a few nights ago, he came face to face with the "santer" and the sight of the beast drove him from under cover.

MR. J. I. MACKS DEAD.

Passed Away Yesterday Morning in San Francisco—Sister Lives Here.

Many Wilmington friends of Mr. J. I. Macks, who formerly resided here and was a popular member of the local bar, will regret to learn of his death, which occurred at 6:30 o'clock yesterday morning in San Francisco where the family had resided the past few years. Mr. Macks was born in Norfolk and was in the 59th year of his age. He was well known in Wilmington and held in the highest esteem. He is survived by his wife, two sons, Messrs. Marion and Morton Macks; one daughter, Miss Jeanette Macks; two brothers and two sisters, Messrs. David Macks, of Danville; Julius C. Macks; Mrs. L. B. Frank, of Wilmington, and Mrs. Ike Hirschberg, of Atlanta. Friends will tenderly sympathize with the bereaved ones in the sorrow which has come to them.

NORTH MEMPHIS TERRORIZED.

Negro Ran Amuck and Was Killed After Desperate Fight.

(By Wire to the Morning Star.)
Memphis, Tenn., Feb. 4.—Following a daring hold-up on a busy thoroughfare today, Henry Morton, a negro armed with a revolver and with pockets filled with ammunition, ran amuck, firing repeatedly into street cars and houses and at pedestrians and terrorized a section of north Memphis before he was shot to death by police and citizens.

After relieving another negro of a bundle of hides Morton endeavored to force a trade with a produce dealer at the point of his pistol. Failing, he sent a confederate to dispose of the body but both escaped before the arrival of police. The negro was finally located aboard a street car but as an officer approached he jumped from the car, firing blindly several times. As he ran he continued to fire. As pedestrians appeared the negro shot hurriedly and continued his race. Several groups of school children were fired on, and firing into a house, the bullet of the negro narrowly missed a woman occupant.

A riot call brought a squad of police who were joined by several scores of citizens and Morton was finally cornered on a porch. At bay, the negro continued to fire on his pursuers, but his bullets went wild while a volley from the pursuers put an end to the battle. Four rounds of unspent cartridges were found in the pockets of the dead negro.

AGAINST GEORGIA'S CAPTAIN

Believed That Captain Qualthrough Will be Court-Martialed.

(By Wire to the Morning Star.)

Gibraltar, Feb. 4.—The court-martial that tried Captain Edward P. Qualthrough, of the Battleship Georgia, on charges preferred by Rear Admiral Walnwright that he was under the influence of intoxicants at a reception given at the Angier by Samuel R. Gummere, the American Minister, reached a decision this afternoon. The outcome, however, will not be made public until the findings have been approved by Admiral Sperry, which probably will be some time before the fleet sails from Gibraltar, in other words, in two or three days.

It is unofficially understood that the court found the specification against Captain Qualthrough proved, but whether with existing circumstances is not known, although this is probably the case. It is believed that Captain Qualthrough will not be restored to duty, but that Lieutenant Commander Kline will take the Georgia Home.

SPIRITS TURPENTINE

—Kenansville News: Representative Koonce, of Onslow, has introduced the first bill to pension a negro. This old negro did conspicuous service for the Confederate cause at Fort Fisher during the war and remained true to his former master. It is probable that he will get a pension and Mr. Koonce is doing all in his power to get him on the roll.

—Fayetteville Observer: Major E. J. Hale, President of the Chamber of Commerce sent out telegrams today to the newspapers of the State announcing the fact that there would be a free ferry established at once across the Cape Fear river at Fayetteville for the convenience and accommodation of the public, made necessary by the burning of the Clarendon bridge today about 12 o'clock.

—Wadesboro Ansonian: There is some prospect of the Pee Dee river being made deep enough for small boats to run from Blawie Falls to Cheraw, from which point the river is navigable to the sea. Congressman Page has secured the passage of a bill which provides for the inspection of the river between these points, and if the report is favorable, an appropriation will be made for the work.

—Fayetteville Observer: Essie Murphy, the little granddaughter of Mr. and Mrs. W. R. Wicker, while standing by the stove in the sitting room caught fire and her clothing was in flames to her waist. She was alone and made no outcry, but immediately threw the ring around her, extinguishing the flames. But for her remarkable presence of mind, she would have been burned to death. She was not harmed.

—Statesville Mascot: Charles Lambert, of Pittsburg, Pa., says that the asbestos mine in Iredell county is now considered more of a success than ever before. A large amount of prospecting has been done during the past week, while local interests are on the increase. Charles Lambert, of Pittsburg, has been in this county during the past week, looking over the local field, while local people are gleefully "information of a nature which is entirely new to this section, relative to asbestos products, mines and miners."

—High Point Enterprise: On account of frozen pipes at Mrs. Jones, the Bascom Hoskins place, yesterday, there came near being a fatal accident. The fire was built in the range and breakfast was cooked. As soon as steam formed in the frozen pipes the range exploded, tearing out a door and windows. Three persons who had been around the range had just left a minute before the explosion. If they had remained a few seconds longer all would have been killed, no doubt.

—Monroe Journal: The cold of last Sunday is not likely to be forgotten in the homes of Messrs. W. S. Rudge, J. A. Douglass and W. S. Baskerville, for the kitchen stove of each was blown to smithereens by an explosion that sounded like a cannon. When the circulation of the water is cut off by freezing, the steam generated by heating the pipes in the stoves is "bleeded" to get out, 'en its own way' "out door," as Uncle Remus would say. While the stoves were converted into junk and the interior of the kitchens transformed, fortunately no one was hurt at either of these places.

—Greensboro Telegram: Yesterday afternoon while passing along South Elm street Sydney Smith, son of Rev. M. A. Smith, had a collision with a negro boy and as a result received a painful wound in his breast, the negro jabbing the knife into him. Young Smith went into Holton's Drug Store where his wound was dressed by Dr. J. W. Long. He was later carried home and last night was able to move around the house. While the wound is very painful it is not thought to be a serious one. Smith said he did not know the negro boy and would hardly be able to recognize him if he should see him again.

—Durham Herald: Dr. T. A. Mann has won before the county commissioners in his appeal for an appropriation of \$50 monthly to the dispensary for the treatment of tuberculosis patients. Dr. Mann began the agitation soon after being appointed city health officer and interested the board of aldermen in the matter. The county commissioners were to duplicate their appropriation of \$50 but they failed on the advice of a lawyer who was not certain that they had the right to do as asked. The county attorney, however, has failed to find anything in conflict with the city's action and it will go. The plan of Doctor Mann is to have a place where tuberculosis may be treated scientifically, a nurse supported there and an experiment made as to prevention and cures. He has had a great number of the people interested with him.

—Concord Tribune: Mr. L. V. Gaffney, the city electrician had quite an experience about 9 o'clock yesterday morning in his kitchen at the M. P. Cole house on North Spring street. He had gotten out of his warm bed and gone to the kitchen where he made a fire in the stove—one of the modern No. 8 Buck ranges. After the fire got well under way he returned to the sleeping room and built a fire, returning shortly to the kitchen. While standing just in rear of the corner of the stove, he heard a sudden lumbering noise in the stove and when he bent over to warm his hands at the fire box, there was a startling gurgling noise followed by a terrific explosion, which sent parts of the range in all directions, making a total wreck of everything connected with it except the boiler. The explosion was caused by the escape being cut off in the pipe leading from the fire box to the water back by a freeze up.

THE COTTON MARKET.

(By Wire to the Morning Star.)
New York, Feb. 4.—Today's cotton market was very quiet with the close barely steady at a net decline of 7 to 11 points. Sales were estimated at 150,000 bales.

The market opened steady at a decline of 2 to 4 points in response to lower cables than expected, scattering liquidation, local selling and a little more of the Liverpool selling here on straddle account. Offerings were pretty well absorbed and prices fluctuated within a narrow range during the middle session, later, becoming easier under increased offerings accompanied by rumors of rain or showers in central portions of Texas.

The market closed at practically the lowest prices of the day. After the close wires were received here by prominent houses denying that any rain had fallen in the Southwest, where the weather so far for the winter is said to have been unusually dry and the absence of a "season in the ground" has been one of the bull arguments bearing upon new crop prospects. During the early trading here leading brokers were sellers of March and May which had a tendency to check scattering demand, although many thought that the selling of these positions was merely for the purpose of making a better buying basis for later months. Private Liverpool cables complained of a slack spot demand and there were similar reports from some sections in the Eastern belt, but local brokers said that new England mill offers wired South a shade under the market were not being accepted. Southern spot markets officially reported early were unchanged to 1-16c lower.

Receipts at the ports today were 39,209 bales, against 39,137 last week and 21,427 last year, for the week 260,000 bales, against 277,058 last week and 217,030 last year. Today's receipts at New Orleans were 13,240 bales against 7,414 last year and at Houston 3,627 bales against 5,648 last year.

Spot cotton closed quiet, middling uplands 9.80; middling gulf 10.05; sales 300 bales. Futures opened steady and closed barely steady.

THE DRY GOODS MARKET.

(By Wire to the Morning Star.)
New York, Feb. 4.—The dry goods market is moving along moderately and steadily. Buyers are numerous and are operating conservatively. Jobbers are increasing the amount of business handled daily. Cotton goods are generally steady. Yarns are quiet. Staple lines of men's wear made by the largest mills have been ordered freely for fall. The trade in gingham and printed goods is very satisfactory.

NEW YORK STOCK MARKET.

(By Wire to the Morning Star.)
New York, Feb. 4.—The professional limitations of the current stock market restricted the swing of prices to a comparatively narrow range. The difficulty of carrying an advance further was becoming manifest before operations were concluded yesterday and the reaction natural under the circumstances followed today. The offering down of prices by bear operators does not appear to dislodge any considerable amount of liquidation and the bears find themselves obliged to buy in stocks to cover. A bidding up of prices, on the other hand, attracts no notable following. The condition underlying the market is clearly one of neglect. Call loans did not fall below 2 per cent. today and the maximum rose to 3 per cent., which makes the record for the new year. The renewed call of the Secretary of the Treasury upon the depository banks for the return of another \$30,000,000 of Government funds by February 28th offered the ostensible reason for the lessened inclination of lenders to accept bids recently prevailing for loans.
Consolidated Gas exerted a depressing influence by a drop which established a new low price for the year, seemingly prompted by determination of the company to make a year's trial of the 80-cent gas law without further effort to contests it in litigation. The suspicion and distrust with which yesterday's allegations of improvements in the copper trade were received resulted in a decline in the copper industrials.
Bonds were irregular. Total sales, par value were \$5,330,000. United States bonds were unchanged on call. Total sales of stocks today were 472,309 shares.

FINANCIAL MARKET.

(By Wire to the Morning Star.)

Time loans strong, 60 days 2 1-2 to 3 3-4 per cent, and 90 days 2 3-4 to 3 per cent, six months 3 1-4 to 3 1-2 per cent. Close: Prime mercantile paper 3 1-2 to 4 per cent. Sterling exchange weak with actual business in bankers bill at 4.8510 to 4.8520 for 60 day bills and at 4.8735 for demand. Commercial bills 384 7-8 to 4.85; bar silver 52; Mexican dollars 44.

TWO MORE JURORS STILL REQUIRED

Only Ten Now in The Box in
The Cooper
Trial.

WHITWORTH IS EXCUSED

Court Decides His Explanations of
Remarks About Governor Patter-
son Not Sufficient—Charges of
Tampering With Jury Box.

(By Wire to the Morning Star.)
Nashville, Tenn., Feb. 4.—When an
early adjournment was taken today in
the trial of the Coopers and Sharp,
charged with the murder of E. W. Car-
mack, the jurors passed for the trial
of the case had been reduced from
eleven to ten by the removal of Juror
Whitworth and a new venire of 500
talesmen had been ordered summoned
for appearance at 9 o'clock Monday
and from these both the State and de-
fense express the hope that the two
jurors necessary to complete panel
will be secured.

When court opened Judge Hart said:
"There have been intimations in the
press that the jury list has been tam-
pered with. I wish to say that the jury
box from which the names are drawn
is in the custody of Circuit Clerk
Lewis Hitt. The names in it were
placed there two years ago. It re-
mains sealed and is controlled by Hitt,
who was Carmack's campaign man-
ager. I make this statement in justice
to everyone concerned."

Judge Hart seemed to feel very
deeply the insinuation that there was
an effort made to get men on the panel
friendly to the defendants. Very
few if any in the room had heard of
such a charge which was sent to the
Judge in the form of a clipping from
an out of town paper. The Court then
drew the new venire and sent for
Juror Whitworth. The latter was asked
to explain his remark that he was
against Governor Patterson.

"I said I was against him because
of his abuse of the pardoning power
and in turning criminals loose."

Mr. Anderson of the defense cross-
examined the juror. Whitworth said
he would much prefer to escape ser-
vice, but denied any bias.

The Court then briefly reviewed the
charge. He held that the claim that
the juror had said that the defendants
should be hanged was controverted.
On the second charge that he had said
that Governor Patterson had a hand
in the killing, the Judge held that the
juror did not deny it specifically enough.

"As referee," the Court concluded,
"I deem it best to excuse Mr. Whit-
worth from the jury."

The State objected strenuously and
said that the Court's action would dis-
credit and disgrace Whitworth. Judge
Hart hastened to say that there was
no ground for such a statement. The
State continued to fight the decision
and in lengthy speeches sought to
change it without avail.

Court then adjourned until Monday
at 9 o'clock A. M. when the efforts to
secure two more jurors will be re-
sumed.

ENTERTAINING THE FLEET.

Series of Boxing Matches—Guests of
Military Governor.

(By Wire to the Morning Star.)
Gibraltar, Feb. 4.—A series of box-
ing matches were held on board the
American battleships tonight. The
main interest centered in the Minne-
sota, where six English cracks faced
the American Navy champions, hon-
ors were even, each country being cre-
dited with one knock-out and two
drawn. The best of feeling obtained
between the rival sailormen.

Admiral Sperry and the division
commanders of the fleet were the
guests of the Military Governor at a
dinner given at the Government
house tonight. Among the other
guests were Admiral Goodrich, Sir
Frederick Milner, Sir Henry Phipps
Schooles, Chief Justice of Gibraltar,
Sir Frederick Evans, Colonial Secre-
tary, and A. M. Coll, Attorney General.

Toasts to King Edward and Presi-
dent Roosevelt were drunk standing.
After the dinner the American officers
attended a ball at the assembly rooms
given by the American Consul Rich-
ard L. Sprague.

TAKING UP CANAL EMPLOYEES.

Impressed With Organization and
Spirit of Energy.

(By Wire to the Morning Star.)
Panama, Feb. 4.—William H. Taft
made an address today to a large as-
sembly of canal employees and mem-
bers of the Isthmian Red Cross So-
ciety. He said that the present con-
dition of the work and progress made
were a source of the greatest satis-
faction to him, and that the engineers
who accompanied him had been im-
pressed with the organization and the
spirit of energy prevailing throughout
the entire force. He spoke favorably
of the great amount of work done every
day, and he then cautioned his hear-
ers against worrying about lying
reports and criticisms in the United
States by irresponsible writers. The
American people were going to build
the canal, Mr. Taft said. Congress
knew the temper of the people and
the appropriations would be ample to
complete the canal by 1915, if not be-
fore.

Mr. Taft viewed the nine miles of
the Culebra cut from the hills at Em-
pire, while the engineers of his party
inspected the channel leading into the
Pacific entrance of the canal.

SCHOONER IS WRECKED

Horace P. Shares Meets With Disaster
off Carolina Coast—Left This Port
January 27th—Crew Carried
to Boston.

(By Wire to the Morning Star.)
Philadelphia, Pa., Feb. 4.—The
schooner Horace P. Shares of New
Haven, Conn., was wrecked on Febru-
ary 1st, latitude 35.23 north longitude
73.48 west, Captain Andrew J. Wilson,
the mate, and three sailors, the entire
crew, being rescued by the Norwegian
steamer Frances, bound from Macoris
or Boston. The Frances arrived at
the Delaware breakwater yesterday
with the crew.

The Shares was bound from Wil-
mington, N. C., for New York. Captain
Stabell, of the Frances, states that on
account of being loaded under deck
with dry lumber he deemed it best
not to set the wrecked vessel on fire
as it was filling fast and would there-
fore only burn to the water's edge.

The Shares was built at New Lon-
don, Conn., in 1882, and was owned
by E. H. Weaver.

Boston, Mass., Feb. 4.—The crew of
the schooner Horace P. Shares, which
was abandoned off the coast of North
Carolina last Monday arrived here
tonight on the Norwegian steamer
Frances from Macoris, San Domingo.

Coupled with the story is the dan-
gers encountered by the men of the
schooner who were stout and
honest of the bravery of Mate
Johnson and the men of the
Frances who risked their lives
to save the crew of the derelict.

BRYAN TALKS POLITICS.

Criticizes Roosevelt and Predicts Vic-
tory For Democracy.

(By Wire to the Morning Star.)
Tampa, Fla., Feb. 4.—Speaking to
an immense throng from the grand-
stand at the race track this afternoon
Wm. J. Bryan said he brought to the
Democrats of the South a message
of good cheer, that there is a steadily
increasing sentiment for the growth
of the Democratic party in the United
States. He commented on the world-
wide spread of Democracy as one of
the "Signs of the Time," when the
masses would demand their rights of
the aristocratic class which is now
using every endeavor to hold its own
against such a growth. He cited the
recent change in the Government of
Turkey and declared that the down-
trodden masses of the country had
forced the most autocratic monarch of
modern times to grant a Democratic
constitution. He commented upon
the usurpation of power by the "Aris-
tocratic party," the present adminis-
tration, the head of which he referred
to as delegating to himself all the au-
thority of a Czar in the manipulations
of his high office. But a change is
surely, if slowly, coming, he declared,
and added that prospects were bright-
er for Democratic victory in 1912
than ever before.

Mr. Bryan injected considerable hu-
mor into his remarks by saying that
he knew there were entirely too many
Republicans in the country for their
own good and for the country's good,
adding that he had been "telling them
about it" for a long time. In reply to
a question Mr. Bryan declined to say
whether he expected to be called on
by his party again "to tell them about
it," passing the query with a broad
smile.

TELLS OF JONES' CRUELTY.

Damaging Evidence Against Defense
in Sensational Murder Trial.

(By Wire to the Morning Star.)
Union, S. C., Feb. 4.—Interest in-
creases in the sensational Jones mur-
der case now on trial here. Judge
Memminger today ruled that any evi-
dence as to threats by Jones on the
life of his wife and evidence as to
their relationship since their occupa-
cy of their new home began three
years ago would be allowed. This is
regarded as an inuring for the prosecu-
tion and much very sensational testi-
mony probably will be brought out
soon.

Mrs. Whitlock swore to seeing nu-
merous bruises and scars on her sis-
ter, Jones' deceased wife, during life
time and how during a visit to her
sister, shortly before the alleged mur-
der she heard Jones and his wife
cursing in the room which Jones and
his wife occupied and a sound as if
some one had been knocked down.

Witness asked Jones to be good to
her sister and she referred to an in-
cident when he had taken his wife
from a school celebration and on the
way home had beaten her with bot-
tles. He said he would rule his own
house. A negro testified that Jones
invited him to dine with him and
Mrs. Jones waited on the table. The
negro objected, but Jones told him it
was all right.

Numerous witnesses testified to
various instances of Jones' alleged
brutal treatment of his wife and dif-
ferent persons had seen many bruises
and scars on her body alleged to have
been the result of his blows. One wit-
ness testified that he had seen Jones
drag his wife by her hair from the
house and whip her.

The State may close its case to-
morrow afternoon.

HOLDING UP NOMINATIONS.

Senate Committee Investigating Sev-
eral Appointments to Judgeship.

(By Wire to the Morning Star.)
Washington, Feb. 4.—Several United
States District Judges' appoint-
ments which have been sent to the
Senate by President Roosevelt are be-
ing held up on charges of various
kinds and three cases are being in-
vestigated by sub-committees of the Sen-
ate Committee on the Judiciary. In
addition to the case of Oscar R. Hund-
ley, for the Northern District of Ala-
bama, which has been before the Sen-
ate for three years, investigations
have been started of charges filed
against A. Herbert Seawell, for the
Eastern District of North Carolina.
No evidence has yet been submitted
in the Seawell case.

ACTION AGAINST THE JAPANESE

Senator Nixon Confident That
Nevada Senate Will Not
Pass The Measure.

THE JAPANESE QUESTION

Nevada House Urged the California
Legislature Against the Japanese.
Conference is Held With Pres-
ident Roosevelt.

(By Wire to the Morning Star.)
Washington, D. C., Feb. 4.—Senator
Nixon today received reply from the
telegrams which he sent yesterday to
the President of the Senate and the
Speaker of the House of the Nevada
Legislature. Mr. Nixon feels confi-
dent that the resolution passed by the
Nevada House, urging the California
Legislature to pass anti-Japanese leg-
islation, will not be passed by the Sen-
ate.

A long letter today was sent to Gov-
ernor Dickerson, of Nevada, by Sena-
tor Newlands as the result of his in-
terview yesterday with President
Roosevelt concerning the resolution
passed by the Nevada House. The let-
ter in part follows:

"With a view to moderating any ac-
tion tending to create friction be-
tween Japan and this country and I
take the liberty of suggesting to the
Legislature, through you, a plan of
action, which while indicating a proper
solidarity for relations or friendship
and amity with Japan will mark clear-
ly our purpose to maintain this coun-
try as the home of the white race
free from racial competition and an-
tagonism on our own soil as will sur-
ely breed domestic violence and in-
ternational hatred. Confronting us on
the east lies Europe with a total popu-
lation of about 300 million while we
people are finding it difficult to assim-
ilate even the immigrants of the white
race from that continent and have
been obliged to carefully restrict im-
migration. We have drifted into a
condition regarding the black race
which constitutes the great problem
and peril of the future. Confronting
our Pacific lies Asia with nearly a
billion people of the brown race, who
if there were no restrictions, would
quickly settle upon and take posses-
sion of our entire coast and inter-
mountain region. History teaches that
it is impossible to make a homogene-
ous people by the juxtaposition of
races differing in color upon the same
soil.

"Race tolerance, under such con-
ditions means race amalgamation, and
this is undesirable. Race tolerance
means, ultimately, race war and mutu-
al detraction or the reduction of one
of the races to servitude. The admis-
sion of a race of a different color, in
a condition of industrial servitude, is
foreign to our institutions, which de-
mand equal rights to all within our
jurisdiction. The competition of such
a race would involve industrial dis-
turbance and hostility requiring the
use of a large armed force to main-
tain peace and order, with the prob-
ability that the nation representing
the race thus protected would never
be satisfied that the means employed
were adequate."

"The Muskogee Land Fraud
Prominent Men Indicted—No Outline
of Defense Indicated."

(By Wire to the Morning Star.)
Muskogee, Okla., Feb. 4.—No meth-
od of procedure in the town lot fraud
indictment cases will be decided upon
until the arrival of Governor
C. N. Haskell here tomorrow. A dis-
patch from A. Z. English, who is at
Los Angeles, and is slowly recovering
from an operation, states that his phy-
sicians have decided that it will be im-
possible for him to come to Muskogee
before April 5th. A number of lead-
ing citizens of Muskogee have signed
his bond and it will be sent to him for
his signature. Attorneys for the in-
dicted men have not yet reached a de-
cision as to whether they will demur
to the indictment or not.

Governor Haskell will be represent-
ed by an array of attorneys when
placed on trial, which probably will
not take place till May or June next.
Blank sheets of paper have been at-
tached to Haskell's bond and hundreds
of citizens signed them today. All the
men indicted are prominent.

Wm. T. Hutchings one of them, is a
lawyer and was born in Virginia. He
was spoken of for Judge of the Okla-
homa Supreme Court but declined to
be a candidate for that office.

TOWING TUG LIBELED.

Damages Claimed For Losing Barge
in Pamlico Sound.

(By Wire to the Morning Star.)
Norfolk, Va., Feb. 4.—J. B. Jones,
master of the barge Frank C. Kugler,
of Philadelphia, today filed a libel in
the Federal Court here against the
steam tug Nettle, claiming \$13,000
damages by reason of the grounding
of the barge in Pamlico Sound, North
Carolina, while bound from Baltimore
to Bayboro, N. C., with cargo. The
Kugler in a storm broke away from
the Nettle which, it is charged, aban-
doned her to be driven ashore. The
Nettle at the time had in tow the
barges Sallie, C. G. Blades and J. B.
Blades.

Yesterday will be long remembered
as "Smoky Day" throughout south-
west Georgia because of the raging
fires which sweep vast timbered tracts
and turpentine farms. An unprece-
dented drought has prevailed for six
months. Everything is so dry that
train crews are compelled to make
frequent stops to extinguish cros-
ties and wooden bridges. Plowing has
been abandoned.

KILLING TIME IN SENATE

To Prevent Crum Matter Coming Up
in Executive Session.

(By Wire to the Morning Star.)

Washington, D. C., Feb. 4.—The mo-
notonous tones of the reading clerk of
the Senate as he labored through the
bill of over 100 pages making appro-
priations for the District of Columbia
constituted the chief feature in the
proceedings of that body today. There
was an evident intention on the part
of the minority to lengthen the time
necessary to dispose of the measure, it
being the only obstacle to an execu-
tive session for the further considera-
tion of the nomination of Wm. D.
Crum to be Collector of Customs of
Charleston, S. C.

On the Democratic side there was a
persistent demand for the reading of
the bill, and occasionally members of
the minority became involved in spir-
ited debate on items usually left to the
judgment of the committee reporting
the measure.

When the Senate adjourned at 5:18
o'clock the reading of only half of the
bill had been completed.

House of Representatives.
The forest service got its usual an-
nual drubbing today, the criticisms
against it coming principally from Mr.
Smith, of California; Mr. Cook, of
Colorado, and Mr. Mondell, of Wyom-
ing, all of whom charged extravagance
in administration and the extortion of
money from miners, farmers, and even
the owners of bee-hives. Mr. Cook at-
tributed to Mr. Pinchot, the chief for-
ester, the ulterior motive of scheming
for Secretary Wilson's seat in the
Cabinet. Both Mr. Pinchot and the
forest service were vigorously defend-
ed by Messrs. Mann, of Illinois, and
Weeks, of Massachusetts. All attempts
to amend the bill in any important par-
ticular failed. Its consideration was
about two-thirds completed when the
House at 5:20 o'clock adjourned.

RACE TROUBLE IN PITTSBURG.

No Outbreak, But High Tension—
More Arrests of Negroes.

(By Wire to the Morning Star.)
Pittsburg, Pa., Feb. 4.—The situa-
tion in the Herron Hill district, where
over 130 negroes have been arrested
during the past couple of days, follow-
ing the many attacks on young white
girls in that section of the city, is
quiet tonight, but a double force of
police and plainclothes men is still on
duty, as there is a strong undercur-
rent of racial feeling that needs but
a slight excuse to make it break forth
in a violent form.

The authorities believe that in Mack
McGee, a negro arrested in the raid
Tuesday night, they have the man
who has been terrorizing the Herron
Hill district. McGee was identified
today as the negro seen running away
from the scene of the most recent
assault and Miss Ida O'Neill, the vic-
tim of the act, gave a description of
the cap worn by her assailant that fits
the headgear worn by McGee.

However, the police are continuing
the search for unemployed negroes
and occasional arrests are still being
made.

Judge John D. Shafer today sent-
enced Wm. Martin, colored, to serve
five years in the Western penitentiary
the limit of the law, on a charge of
assault and battery with intent to
commit a more serious crime on Mrs.
Mary Shafer several weeks ago.

Many negroes of the Herron Hill
district are moving to the suburbs to
get away from the scene of the trou-
ble.

The authorities have sent out de-
coys in the troubled section in an
effort to catch negroes who have been
molesting white women. Young men,
dressed as women and armed with
black jacks, walk through the district
hoping to have the guilty negroes ac-
cost or attack them.

LIVELY TILT IN THE HOUSE.

Two of the Oldest Members Cause
Amusement.

(By Wire to the Morning Star.)
Washington, Feb. 4.—While the
House was today considering the Agri-
cultural Appropriation bill there was
a sharp exchange of words between
Mr. Hepburn, of Iowa, and Mr. Liv-
ingston, of Georgia, two of the oldest
members of the House. A colloquy
over a minor amendment between Mr.
Livingston and Mr. Scott, of Kansas,
was carried on in such a low tone of
voice that Mr. Hepburn protested
that he could not hear and that they
both were out of order.

"I am very much obliged to the
gentleman," replied Mr. Livingston
amid an uproar of laughter, "but he
certainly is getting in his dotage."

The chair admonished the members
that they must observe the rules of
debate and address the chair.

Mr. Hepburn again got the floor.
"The gentleman from Georgia in his
amiable has suggested that I am
in my dotage," he said, "and yet his
evidence of that was that I could not
hear his wanderings; but the moment
the chair addressed the House in loud
tones the gentleman at once said: 'I
cannot hear.' I submit the question
of dotage to the membership."

Although plainly vexed at first, Mr.
Hepburn smiled as he sat down, the
House in the meantime being convulsed
with laughter.

TARIFF REVISION

Not So Greatly Desired by Some For-
mer Advocates.

(By Wire to the Morning Star.)
Washington, D. C., Feb. 4.—"Some of
my constituents, when they see a re-
vision of the tariff near at hand are
not so strong as they were before for
such revision," declared Senator Clay,
of Georgia, in the Senate today in
commenting on an appropriation bill
and the large amount of money involv-
ed in it. Senator Bacon at near his
colleagues when he made this remark,
but he only smiled and said nothing.

Mr. Clay continued to say that with
the necessity of raising about one
billion dollars annually for the ex-
penses of the Government there would
be incidental protection to industries
that could not be avoided.

LICENSED TO PRACTICE LAW

Thirty-Nine Out of 48 Passed—Will
Ward to State Penitentiary.

(Special Star Telegram.)
Raleigh, N. C., Feb. 4.—Thirty-nine
of the 48 applicants for license to
practice law successfully passed the
Supreme Court examination. A mong
the number are Thomas N. McDiarmid,
of Robeson; Joseph E. Johnson, Dup-
lin; Rivers D. Johnson, Duplin; Wil-
lia A. Clark, Bladen; John G. Tooley,
Beaufort; Walter P. Byrd, Harnett;
M. C. Staton, Edgecombe; Porter Huf-
ham, Columbus; Ernest Steele, Anson;
Kirby C. Sidbury, Onslow; Samuel T.
Stancell, Northampton.

Out of an abundance of precaution,
Will Ward, the Sampson criminal as-
sault fiend, was brought back here
and placed in the State prison for
safe keeping last night. The feeling
is still high in Sampson, it is said, and
it was thought best to keep the prison-
er here until his execution. He was
accompanied by a military guard here.

WATER COMMITTEE MEETS

Conferees Last Night at City Hall.
Company Officials Present.

A conference of the joint committee
from the Board of Aldermen, Board
of Audit and Finance and Water and
Sewerage Commission to determine
upon what is best to do in regard to
the acquisition of the present water-
works plant, was held last night at
the City Hall, all members present
except Mr. McNair. The meeting was
of a private nature. After the joint
committee had been in session for
some time, the officials of the water
company were granted an audience
and it was stated the whole matter
was gone into very thoroughly. It
is believed that the next few days will
see a conclusion of this knotty prob-
lem.

INCREASE CLERK'S SALARIES

The Question Broached in the Senate
and Urged.

(By Wire to the Morning Star.)
Washington, D. C., Feb. 4.—The
question of increasing the salaries of
Government clerks was briefly discus-
sed in the Senate today in connection
with the consideration of the bill mak-
ing appropriations for the District of
Columbia. It was touched upon by
Senator Bacon who said: "I do not
think it is to the credit of the Con-
gress that we have raised our own
salaries and the salaries of high offi-
cials who are in a position to urge
their wishes and have not only neglect-
ed but refused to increase the com-
pensation of Government employees
with small salaries who are not in a
position to insist upon their demands
and would be rebuked and in danger
of losing their places should they in-
sist upon an increase."

Senator Gallinger in charge of the
District Bill said he agreed with the
Senator from Georgia and when some
plan is presented he would be glad to
join in increasing salaries of poorly
paid Government employees.

ANTI-SALOON COMMISSION.

Concluding Sessions Held at Birming-
ham Yesterday.

Birmingham, Ala., Feb. 4.—At the
concluding session of the anti-saloon
league workers conference today, res-
olutions were adopted calling on Re-
presentatives in Congress to vote for
the Langley Inter-State shipment bill,
expressing protest against the ap-
pointment of a commission by Con-
gress to investigate the liquor traffic
on the belief that this movement is
designed to delay pending legislation
urgently needed; that the friends of
the organization be called upon to be
"vigilant in law enforcement for the
enemy never sleeps," and deploring
the publication of liquor advertise-
ments by newspapers.

BULL RUN MONUMENT.

Senator Daniels' Bill For Purchase of
the Grounds.

Washington, Feb. 4.—A hearing was
granted today by the Senate Com-
mittee on Military Affairs on Senator
Daniels' bill providing for the pur-
chase of land on which stand certain
monuments erected on the battlefield
of Bull Run, Va. There are a number
of these monuments which stand on
private property, the titles to which
have never been acquired by the
United States. Some of them are Con-
federate and some Federal monu-
ments. No action was taken by the
committee and it is likely that a sub-
committee will go to the battlefield
to investigate the situation.
